*Thank you to all the residents and businesses  
for your ongoing support to Neville Green*

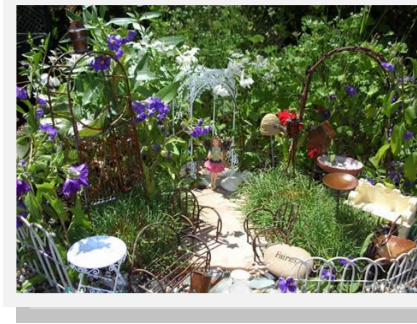

**Recycling** ~ Despite all of our efforts, we have been unable to make any arrangements with Waste Management to have a recycle bin available for the residents of the Island. We will look into other options. Paper products may be taken to Cornell High School or Our Lady of Sacred Hearts.

**Garden Tip**

Summer is here, so are the back yard picnics. To make that covered dish you are taking to a picnic special, remember you can use edible flower for decoration. Some of the flowers that work well from your garden are — lavender, nasturtiums, pansy, roses, squash blossom, scented geraniums, violets or any of your fresh herbs are just a few. Remember when using flowers — do not use pesticides or other chemical on any part of the plant.

**Fairy Gardens** ~ The hottest trend to come along in gardening recently is the fairy gardens. Fairy gardens are miniature landscapes created using small-scape plants and accessories. Miniature gardens can be planted outside or inside. If using a container for indoor use start with layer of pebbles for drainage, next a very thin layer of charcoal to keep the soil fresh. The rest of the container with good potting soil. Use plants that are small.

Water as needed. When fertilizing remember you are using miniature plants so use sparingly.

Accessorize your garden with miniature that are made for fairy gardens. They are available on line, as well at some local stores and gardening centers (places I have seen

fairy accessories at Brookside's Green House, Janoski Farms, Inc., Plow & Hearth, Pat Catan's, Riley's Seat Farm, Robinson's Home and Garden, Soergel Orchards and Garden Center).

Use your imagination and enjoy watching the fairies (if you are lucky enough to see one).

**Planters** ~ If you have one of the Neville Green planters in front of your yard, please help Neville Green by watering the planters.
